Peoples' Forum On "Property Tax" / Feudalism

WE SHALL BE HEARD!
WE'RE NOT TENANTS
OR VASSALS!
WE'RE OWNERS!

State Can't Lawfully Alien Your UnAlienable Property

Let' STOP UnLawful "PROPERTY TAX"

Do you want:

- to know why the state doesn't possess and cannot obtain lawful authority to alien your property for the creation or support of the state?
- to know why we have lost one half of the purpose for the creation of the United States?
- to tell the state you know "property tax" is unlawful?
- to stop unlawful property taxes in Texas?

Attend the Peoples' Forum on "Property Tax" aka FEUDALISM

MixNstream / Peoples' Forum will:

- Host and Live-Stream this Presentation to <http://mixNstream.com/feudalism.html>
- Copy the Presentation on CDs and send to each Texas Legislator, the nine Supreme Court Justices and the Governor with a written summary of our forum.
- Send additional copies to all major news networks.

Ron Avery will prove that the state only has two sources of lawful authority to do anything and both prevent the state from obtaining authority to impose the feudal system in Texas, therefore preventing property tax on any type of property.

He will also show why the purpose of public education is destroyed by its means of support via "property taxes." His discoveries were made during his two trips to the Texas Supreme Court.

Russell Bennett of "Eliminate Property Taxes" on Facebook will address the need to educate the people about the importance of property ownership to lawful society and the concern of his growing group that already consists of many who have been, or are now, involved in political campaigns.

Michael Palma, has been studying the Texas Property Tax Code for over 10 years and will educate you on what it says. It appears to Mike, and many others who have studied it, that property taxes do not apply to one's homestead.

Doug Kirk, owner of Morton Falls Publishing Company and three weekly newspapers, will be a witness to how the Comal County Appraisal Review Board Chairman threatened to influence the Chief Appraiser to go back several years and alter the value of his income producing property if he did not allow the appraisers onto his property. He will show how he was singled out and punished as an example among the same class of "taxpayers." He will also show that the appraised value on his home went from \$55,000 to \$358,000 in one year when he had done nothing to improve it.

A roundtable discussion with Q&A and comments will be held with all speakers at the end.
